

CPD PRESENTATION WORKSHOP

Educating and inspiring architects through CPD

OVERVIEW

Continuing Professional Development (CPD) is a learning activity that enhances an architects' knowledge and skills within their profession. Suppliers and manufacturers can become accredited providers of Formal CPD, but often find that writing a presentation that meets all industry requirements can be quite challenging. This is exactly what our CPD Presentation Workshop focuses on – how you can develop and enhance the knowledge of registered architects with a presentation that exceeds industry standards for Formal CPD.

TRAINING BACKGROUND

To develop this seminar we have drawn on our experience in developing and assessing CPD topics for suppliers - what are the common challenges that suppliers are facing when writing CPD material, and how can they overcome them? We have also surveyed architects on what they look for in a CPD presentation, and what makes a presentation stand out. Based on this knowledge and our experiences, we have developed a half-day seminar that will ensure attendees are able to write engaging and memorable CPD presentations.

TRAINING AGENDA

What Is CPD?

- CPD defined – Informal CPD vs. Formal CPD
- Understand the key requirements for Formal CPD
- Becoming an accredited provider of Formal CPD

Developing Your Topic

- Selecting a topic that will enlighten, challenge, inspire and excite your target audience
- Building your presentation and learning outcomes
- Separating your brand from your educational content
- Positioning yourself as a technical expert through CPD

Presenting Your Topic

- Having a presence while presenting and providing a memorable educational experience
- Presentation tips and tricks to ensure you stand out from the crowd
- Building relationships with specifiers through Formal CPD
